

AMENDMENTS TO THE CLAIMS

Claim 1 (Currently amended) A composition ~~comprising consisting essentially of 45-92 weight% a thermoplastic material, containing fillers wherein said fillers comprise: (A) 1-20 weight% by weight of graphite; (B) 4-30 weight% by weight of a carbon fiber, and (C) 1-20 weight% by weight of mica, said composition providing articles made therefrom~~ having a coefficient of friction of less than or equal to 0.20, wherein the weight percentages are based on the total weight of the composition, ~~wherein the thermoplastic material comprises at least 50% by weight of the total composition, and wherein the sum amount of said thermoplastic, said graphite, said carbon fiber, and said mica is at least 85% by weight of the total composition.~~

Claim 2 (Withdrawn) A composition according to claim 1, further comprising (D) 0-15% by weight of a particulate polyimide.

Claim 3 (Withdrawn) A composition according to claim 2, wherein said thermoplastic material comprises 45-92 weight %.

Claim 4 (Withdrawn) A composition according to claim 3, wherein said thermoplastic material comprises preferably 50-86 weight %.

Claim 5 (Withdrawn) A composition according to claim 4, wherein said thermoplastic material comprises most preferably 65-70 weight %.

Claim 6 (Currently amended) A composition according to claim 1, wherein said thermoplastic material comprises liquid crystal polyesters (LCPs), ~~polyimide~~ or polyether ketone (PEKK).

Claim 7 (Previously presented) A composition according to claim 1, wherein the carbon fiber is chopped.

- Claim 8 (Previously presented) A composition according to claim 1, wherein the carbon fiber is milled.
- Claim 9 (Previously presented) An article made from a composition according to Claim 1.
- Claim 10 (Previously presented) An article made from a composition according to Claim 6.
- Claim 11 (Previously presented) An article made from a composition according to Claim 7.
- Claim 12 (Previously presented) An article made from a composition according to Claim 8.
